End User License Agreement (EULA) for the AffetSpeech Dataset

This End User License Agreement ("Agreement") is entered into between Southeast University Affective Information Processing Lab (SEU-AIPL) ("Provider") and the Licensee identified below, consisting of the signing researcher and the institution represented by that researcher, where applicable.

The AffectSpeech Dataset consists of textual descriptions and annotations developed by the dataset authors based on publicly available speech datasets. The original speech recordings are not included in the distributed dataset.

1. License Grant and Permitted Use

Subject to the terms of this Agreement, the Provider grants the Licensee a non-exclusive, non-transferable, royalty-free license to access, download, reproduce, and use the AffectSpeech Dataset solely for non-commercial academic research and educational purposes.

The Licensee may permit researchers within the Licensee's named institution who are members of the signing Principal Investigator's (PI's) research group and are under the PI's supervision to use the dataset, provided that such use complies with this Agreement. The Licensee is responsible for ensuring that these authorized users comply with the applicable terms.

2. Restrictions

The Licensee agrees to the following restrictions:

- **No Unauthorized Redistribution:** The Licensee shall not sell, sublicense, publicly redistribute, or provide the dataset, in whole or in substantial part, to any person or institution outside the authorized research group without prior written permission from the Provider. Copies reasonably necessary for permitted internal research activities are allowed.
- **No Commercial Use:** The dataset shall not be used for commercial products or services, commercial research and development, or other activities primarily intended for commercial advantage or monetary compensation. Any proposed commercial use requires prior written authorization from the Provider.
- **No Re-identification:** The Licensee shall not attempt to identify or re-identify any individuals based on personal or identifying information, if any, contained in or inferable from the dataset.
- **Data Security:** The Licensee shall take reasonable measures to prevent unauthorized access to, use of, or disclosure of the dataset.
- **Compliance with Source-Dataset Terms:** The Licensee shall comply with applicable terms and attribution requirements governing the original datasets from which the AffectSpeech annotations were derived.

3. Intellectual Property and Attribution

The Provider retains all rights, title, and interest in the original textual descriptions and annotations that it is authorized to license. The Licensee acquires no ownership rights in these materials by virtue of this Agreement.

Third-party materials and rights, if any, remain subject to their respective owners' terms and licenses. Nothing in this Agreement grants rights that the Provider does not hold or is not authorized to grant.

All publications, reports, presentations, and other scholarly outputs using the dataset must acknowledge AffectSpeech and cite the following paper:

```

4. Disclaimer of Warranty and Limitation of Liability

The dataset is provided “AS IS,” without warranties of any kind, express or implied, to the extent permitted by applicable law. The Provider shall not be liable for any damages arising from the use of, or inability to use, the dataset, except to the extent that such liability cannot lawfully be excluded or limited.

5. Termination

The Provider may terminate this license if the Licensee materially breaches this Agreement. Upon termination, the Licensee shall cease use of the dataset and delete all copies under its control, except where retention is required by applicable law.
